-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. The claim currently depends on a canceled claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schuricht 5,040,132 in view of Harris, Jr. et al. 5,114,128.

Schuricht '132 discloses all elements per claimed method: receiving an intended delivery location with each of a plurality of documents (column 2, lines 55-68); determining a time required to deliver each document to the intended delivery location (column 3, lines 17-21); determining a desired date of receipt (column 9, lines 64-66); printing each document to allow for the time required to deliver each document on the desired date of receipt (column 10, lines 4-10); obtaining shipping data for each document and printing a label for each document. However, Schuricht '132 is silent as

to the specifics of printing each document and printing the shipping label in-line with each document for subsequent mailing.

Harris '128 discloses a known method of printing mailing labels in-line with the printed documents to be mailed.

It would have been obvious for a person with ordinary skill in the art, at the time the invention was made, to have generated Schuricht '132 label in-line with printed documents to be mailed, as taught by Harris '128, because it facilitates known means for putting labels on mailing documents.
